

Art Progression – Gawsworth Primary School			
Date	Review Date		Subject Leader
May 2020	July 2021		Miss F Wildgoose
<p>This document aims to give guidance on the progression of art knowledge, skills and techniques across the year groups.</p> <p>It can also be used to differentiate work, and expectations, appropriately for pupils working above and below age-related expectations (particularly SEND pupils and GD pupils). Potential GD pupils should also be encouraged to record more independently and freely in their sketchbooks as well as be encouraged to experiment with and use materials and media of their own choice. Their increasingly critical thinking and in depth evaluation of their own and others' art work should be reflected in their sketch books and the works of art they create with increasing confidence and independence of thought. In Art, like all other subjects, we recognise the importance of the methods and practice of teaching (the pedagogy) we choose to use in enabling pupils to know more, understand more and remember more.</p> <p>In Art, the following approaches will be used, and be evident in pupils' sketchbooks and topic books, in order to ensure that the Art learning opportunities are as effective as possible and that pupils progress throughout the year and across year groups during their art experiences in school.</p>			
Teaching Sequence in Art (Recommended Structure across year groups)	<ul style="list-style-type: none"> • Study of an artist/artefact/era (which may include independent research); • Critically evaluating the artists' work to inform own art work; opportunity to compare artwork against familiar artists. • Experimenting and investigating with different techniques and media; • Creating own artwork, applying new techniques, skills and media to own art work • Critically evaluating their own (or peers) artwork. • Opportunity for improving artwork if needed • Reflection and recap of knowledge. • Art lessons should continue to revisit learning and techniques developed from previous Year Groups, but also apply current learning to their artwork, to give it relevance and meaning, At Gawsworth we do this through teaching art as a cross curricular approach with our year group topics. 	Teaching Approaches	<ul style="list-style-type: none"> • Direct teacher instruction; modelling skills and techniques. • Inquiry based learning through independent experimenting and outdoor learning. • Pupil led learning, giving them opportunity to explore their own creativity. • Being introduced to the key vocabulary that an artist would use; pupils 'talking like an artist' <ul style="list-style-type: none"> - colour (hue, intensity, value, shade, tint), - form (two-dimensional, three-dimensional, sculpture, perspective), - line (lines, curves length, width, strokes, direction), - shape (SHAPE NAMES), - space (background, foreground, middle ground, distance, in between, around, within), - texture (feel, look, smooth, bumpy, hard, soft, clear, rough) - value (lightness, darkness, contrast, shades, tints)

Aims: Exploring and developing ideas	Children use what they have learnt about media and materials in original ways, thinking about uses and purposes. They represent their own ideas, thoughts and feelings through art.	Explore and record their own ideas through painting, drawing, sculpture, in response to first hand observations, e.g. real objects, pictures, artefacts, and experiences. Talk about their ideas and the choices they have made, e.g. chosen tools, media, materials. Beginning to work creatively e.g. with a range of media on different scales.	Develop and record their ideas through painting, drawing, sculpture in response to first hand observations, e.g. real objects, photographs, artefacts, and experiences. Talk about and answer questions about the starting point, and choices they have made, e.g. chosen tools, media, materials. Show confidence in working creatively e.g. with a range of media on different scales.	Choose their own starting point from a range of ideas e.g. a visit to an art gallery, an artefact, digital images, experiences. Begin to record their thoughts and experiences in a sketch book/topic books. Explain the reasons for their ideas, and discuss and answer questions about how their ideas have developed. Show confidence and independence when working creatively e.g. with a range of media on different scales.	Investigate different starting points for their work, and choose which idea to develop further. Record their thoughts and experiences in a sketch book/topic books, and begin to annotate these. Explain how they are developing their ideas as they work, and are beginning to use language appropriate to the chosen style of art. Use creative thinking to begin to adapt an initial idea, e.g. experiment with alternative colour palette.	Investigate a range of starting points for their work, and choose which idea to develop further. Record their thoughts and experiences in a sketch book / topic book, and annotate these in order to aid the development of their ideas. Explain how they are developing their ideas as they work, and use language appropriate to the chosen art form. Use creative thinking to adapt an initial idea, e.g. experiment with alternative colour palette.	Independently investigate a range of starting points for their work, and confidently develop their ideas further. Record their thoughts and experiences in a sketch book/topic book, and review and revisit these ideas as their work develops. Are confident to work creatively, adapting ideas, and taking risks when choosing tools, materials and media. Confidently use language appropriate to the chosen art form, to help them to explain their ideas.
